“A Bad Day at Work”

Most of us have had what we considered to be a bad day at work. Maybe we made a mistake in execution of our duties, or maybe we had to deal with an obnoxious customer or coworker. Maybe we arrived late for work. Let me tell you about a doctor who arrived late for work and has been sued for malpractice. Brace yourself. This is not pleasant. (Also, please note my intended sarcasm.)

Recently, a doctor in Florida prescribed medication to a patient to prepare for a procedure to take place within a couple of days. She followed his orders and came to the clinic for her procedure. On the day of the procedure however, the doctor was late. The young woman went into labor and delivered her 23-weeks-along baby girl. A little premature, you might say, and you would be right...but she wasn't supposed to come out alive. You see, the procedure was an abortion. A worker at the clinic was “on the ball,” though and took swift action. She (without medical license) cut the umbilical cord and placed the still-alive baby into a plastic biohazard bag and threw her away with the rest of the “medical waste.” Problem solved.

The doctor in the above case has been sued for medical malpractice, in what is coldly described as a “botched abortion.” Plainly speaking, the doctor did not do what he was supposed to have done in the legal procedure and he is being sued for that neglect. (For the record, there are varying accounts of the incident. Also, as of February 6, 2009, no criminal charges had been filed.)

LADIES BIBLE CLASS

Ladies Bible Class is Tuesday March 3rd at 10:00 a.m. in the back classroom.

A Worm in an Apple

How does a worm get inside an apple? Perhaps you think the worm burrows in from the outside. No, scientists have discovered that the worm comes from the inside. But, how does he get in there? Simple. An insect lays an egg in the apple blossom. Sometime later the worm hatches in the heart of the apple, then eats his way out.

Sin, like the worm, begins in the heart and works out through the person's thoughts, word, and actions.

For this reason, David once wrote, “Create in me a clean heart, O God.”

(Cont'd from front)

As you might guess, many people are outraged. The lack of respect for human life *outside the womb* is easily seen. But, what about the baby? Did she only become human when she was born? “Please read Psalm 139:13, 14 and Proverbs 6:17.) Here are some other questions we all must ponder:

- What did the young woman think as she saw a baby instead of an image on the screen or a mind-picture of a fetus (“blob of tissue”)?
- What must have occurred in the life of the abortion clinic worker to so harden her that her instincts told her to correct the “mistake” in such a cold and callous manner?
- What drove the doctor to such a practice instead of the original intention of physicians—that of saving human lives?
- Where are we, as a nation, when murder inside the womb takes place every day, and such a thing as this happens, and it is reported in the papers as a botched procedure???
