(continued from front page)

The other objective was to try to have an area-wide gospel meeting each year at a "neutral site". It was decided to use some sort of public facility in order to try to interest as many non-Christians as possible.

Another decision that was made was to "rotate" the oversight of this effort each year. This was done in order to keep people from thinking that this was the work of any one particular congregation.

For the first three years, the oversight and the location of the area-wide gospel meeting has been in Graves County. The elderships which have overseen this work have been from Lebanon, Northside in Mayfield, and Spring Creek. Each gospel meeting has been at the Graves County High School Gymnasium.

Sometime toward the end of 2005, the elders at Central were asked to assume the oversight for this year. It was thought that, in order for this to be truly area-wide, a congregation in some county other than Graves County should be selected for this responsibility.

Now, it's our turn! A lot of "leg work" has already been done. A lot will still need to be done. Let's not let the people down who have worked so hard to get to this point.

Most of all – **let's not let the Lord down!**
